

Cheese & Toastie

Healthy Canteen Operators & Catering Services

School Canteen Procedures:

Ordering: Lunch orders must be placed via the Flexischools website. Flexischools allows you to order from home or on your mobile. Ordering is convenient and can be accessed 24/7. These orders can be placed weeks before or up until 9am the day the order is required. www.flexischools.com.au The 2021 new class list has been added. Parents will be able to update their new 2021 class for the order now.

To avoid the peak time on a Friday morning. We suggest that place your order on Thursday or before. If you missed the 9am cutoff time, you can still order online through the Emergency lunch section and the cut off time will be 10:30am. **Unfortunately, we do not take any orders after 10:30am**

Recess: The baskets are not delivered to the classroom; recess food must be picked up over the counter. There is a separate counter where the students' orders can be picked up from and they **do not** need to queue up.

Students without orders may queue up and buy something across the counter. A variety of fresh food items made in the canteen will be available to purchase and may not always be on the Flexischools menu.

Lunch time: Lunches will be placed into classroom baskets, collected from the canteen by a class representative and then distributed in the class room 10 minutes before lunch time.

Some food items such as ice blocks and soup will be stamped with " **Canteen Pick Up**", see the photo, the student will then need to collect **WITH THEIR LUNCH PAPER BAG** after the students finished their lunch. Bring the bag to the canteen for item collection by themselves.
